

Appl. No. 10/519,855
Amdt. dated: August 4, 2008
Reply to Examiner's comment of: July 8, 2008

Amendments to the Drawings:

Please replace sheets 1-5 of the drawings with attached Replacements Sheets 1-5.

REMARKS/ARGUMENTS

This application has been carefully reviewed in light of the Examiner's comment dated July 6, 2008. Sheets 1-5 of the drawings have been replaced with Replacement Sheets 1-5 to recite proper drawing numbering. The specification has been amended to recite SEQ ID Nos. 1 and 2 as required by 37 C.F.R. § 1.1821(d).

All Incorporated Sheets claim incorporation to PCT/JP03/08305 and WO 2004/003021 as required by MPEP § 1.57, and an English translated copy of the priority document is provided as United States Patent Publication No. 2006/0292160. Replacement Sheets 1 through 5 also claim incorporation to PCT/JP03/08305 and WO 2004/003021 as required by MPEP § 1.57, and an English translated copy of the priority document is provided as United States Patent Publication No. 2006/0292160.

The applicant would like to point out that Table 2 that begins on Incorporated sheet 2/5 of the previously filed response continues 4 pages (up to the Incorporated sheet 5/5). It shows a sample of cDNA and should not be regarded as individual Tables 2-5 by each page, but rather one table that is 4 pages long. Applicant would also like to point out that Fig. 5 is a model diagram so that the sequence shown on Figure 5 does not need to be identified in this invention.

The Director is hereby authorized to charge any additional fees or any underpayments which may be required for the above-referenced application to Deposit Account No. 01-0265.
